Attachment B

- 3 lines per rear quarter panel – see attached drawing for crease depth
- Bottom of quarters may be folded under. No adding of anything. Inspectors will be carefully looking if need be. Cannot be between frame and body.
- No raising of roofs or window openings on wagons.
- Trunks may be dipped 6" maximum in the center of the trunk. If 6" will cause quarters to layover then go less.
- If you tuck the trunk you forfeit the dip option.
- Quarters cannot be pulled in.
- Quarters must remain vertical and close to stock height.

These are the only areas to be exercised. We encourage the youth driver to do this.
